1. Applicant's election with traverse of Group I in Paper No. 12 is acknowledged.

The traversal is on the ground(s) that the reference cited does not show the claimed invention. This is not found persuasive because newly cited reference, US 5882728, shows a fluorination chamber which anticipates instant claim 5. In view of applicant's arguments, the process claims will be examined with the article claims.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 1-4, 7 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase "especially for" in claim 1 is not a recognized limiting expression and therefore renders the scope of the claim indefinite. In claim 2 there is no antecedent basis for the term "it" and in claims 4 and 8 there is no antecedent basis for the term "the insertion".
